SUMMARY

I'm a product leader with 15+ years' experience. I build software that helps designers and engineers do their best work together. As Global Head of Product for AutoCAD, I ran a \$2B+ enterprise platform used by millions in accuracy-critical work, launched it in the browser, and built the shared collaboration environment behind it with leading partners. I defined the AI strategy that put new capability in front of 1M+ engineers, including an MCP server that let customers build their own AI automations. Known for building high-trust teams across the seam of design and engineering, I'm now focused on powering designers and builders to make amazing new things with AI.

EXPERIENCE

Autodesk / Director, Global Head of Product Management, AutoCAD

San Francisco · 2015–2025

Owned product, strategy, and growth for the AutoCAD line: 8 toolsets, web, mobile, and developer ecosystem. Doubled the business to \$2B+ over six years.

- **SaaS transformation:** led the perpetual-to-subscription shift and re-architected the company-wide entitlement system, enabling new web and mobile business models.
- **GTM partnerships:** negotiated co-integration deals with Google, Microsoft, Dropbox, and Box, giving customers access to 10B+ files stored outside Autodesk and driving cross-platform growth.
- **New enterprise offering:** brought Autodesk Docs to market, aligning product, sales, strategy, and marketing.
- **Product-led growth:** launched AutoCAD Web from zero to 80K+ MAU and ran packaging, onboarding, and upsell experiments to grow SMB self-serve revenue.
- **AI strategy:** defined the AI roadmap and shipped an MCP server plus 8+ automations to 1M+ engineers, designed to be safe and reversible in accuracy-critical work.
- **Leadership:** grew the team from 3 to 12 PMs and 3 senior managers, built exec-level customer relationships, and owned the executive product narrative at Autodesk University.

Fieldwire Labs / Director of Customer Success

San Francisco · 2014

- Built the customer-success function from scratch; the go-to-market motion acquired 7 enterprise logos.

Onshape / Strategy & Marketing Manager

Belmont, MA · 2013

- Built TAM/SAM models, segmentation, and pricing strategy for cloud CAD.

Turner Construction / Virtual Technologies & Field Engineering

Boston · 2008–2012

- Led 3D coordination and field teams on \$300M+ projects (~\$2M saved); launched a lidar AR/VR service for owners including Partners Healthcare and Harvard.

EDUCATION

MIT Sloan School of Management / MBA, Entrepreneurship & Innovation

Cambridge, MA · 2012–2014

Tufts University / BS, Civil Engineering

Medford, MA · 2004–2008

Additional: UC Berkeley Product Management Certificate (2017) · Andrew Ng Machine Learning (Coursera)

SPEAKING & THOUGHT LEADERSHIP

- **Autodesk University Annual Keynote (2018–2024):** owned the executive product narrative for ~300 live and ~4,000 online viewers.
- **Google I/O 2018:** authored the AutoCAD Web narrative presented on the mainstage; later adapted for Microsoft Build and BoxWorks.
- **Wharton Future of Cities:** panelist on digital twins, spatial computing, and the future of cities.
- Featured in Architosh, Engineering.com, and ITmedia (Japan) on AI and customer-centric product strategy.

BEYOND WORK

AI coding projects · Product & startup consulting · Wingfoiling · Arts · Languages: French, Arabic, Spanish.
